PROFESSIONAL SUMMARY

Junior Software Developer with 2+ years of experience developing secure, scalable, and database-driven applications using Next.js, React, TypeScript, Node.js, ASP.NET, C#, and PostgreSQL. Experienced in building enterprise software, authentication systems, REST APIs, and full-stack solutions that enhance operational efficiency and user experience. Strong foundation in software engineering, application security, and problem-solving, with a passion for delivering innovative technology solutions in fast-paced enterprise environments.

EDUCATION

Bachelor of Science in Software Development - Brigham Young University – Idaho | 2026

Bachelor of Technology in Statistics - Federal University of Technology, Owerri | 2022

Pathway Connect Certificate - BYU Pathway Worldwide | 2025

PROFESSIONAL EXPERIENCE

Software Developer | Remote

Jan 2025 – Present

- Developed full-stack applications using Next.js, React, TypeScript, Node.js, Express.js, ASP.NET, C#, PostgreSQL, and Supabase.
- Built secure authentication and role-based access control systems for enterprise-grade applications.
- Designed and implemented RESTful APIs and scalable database architectures.
- Improved application performance and user experience through optimization techniques (up to 40% improvement).

Key Projects

Enterprise School Management Portal

- Built a secure school management system using Next.js, TypeScript, Tailwind CSS, Supabase, and PostgreSQL.
- Implemented Computer-Based Testing (CBT) system with automated exam delivery and grading.
- Developed admissions processing, report card generation, and personalized dashboards.
- Designed role-based authentication for students, teachers, and administrators.

Personal Budget & Expense Tracker

- Built a financial management system using ASP.NET, C#, and PostgreSQL.

- Implemented income/expense tracking, budgeting tools, savings goals, and analytics dashboards.
 - Developed secure user authentication and personalized financial insights.
-

Web Development Intern | Eagle Eye Engineering Services, Lagos

February 2023 – Dec 2024

- Assisted in backend development, API integration, and database management using Node.js and MySQL.
 - Improved application performance and reduced page load time by up to 40%.
 - Enhanced accessibility compliance (WCAG standards) from 60% to 95%.
 - Collaborated with senior developers in Agile-based project environments.
-

Intern | Guaranty Trust Bank (GT Bank), Nigeria

Jun 2021 – December 2021

- Assisted in supporting internal banking applications and enterprise software systems.
 - Participated in software testing, debugging, and maintenance of banking platforms.
 - Gained exposure to financial systems, secure application workflows, and enterprise IT infrastructure.
 - Collaborated with IT teams on system monitoring, issue resolution, and documentation.
 - Observed banking software development processes and enterprise security practices.
-

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C#, SQL

Frontend: Next.js, React, HTML5, CSS3, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, ASP.NET, REST APIs, Authentication & Authorization

Databases: PostgreSQL, MySQL, Supabase, Database Design & Optimization

Tools: Git, GitHub, VS Code, Postman, Chrome DevTools

Core Skills: Software Development, API Integration, Application Security, Agile Development, Debugging, Testing, Performance Optimization

CERTIFICATIONS

- Web & Computer Programming Certificate – BYU Pathway Worldwide (2025)
-
